Dear Stanley,

I appreciate your letter regarding the 1875 coin. Perhaps in another market I would be a prospect; however, in this present market cash will be king and those who have it will get a lot of opportunities.

Stanley, I would like to have the coin and would pay \$150,000 for it, which I think based on my research is more than its present value. I can't see stretching to \$200,000 in this market.

If by chance you can't sell it for \$200,000 and would consider my offer, let me know and I'll send you a check.

Sincerely yours,

Mack Pogue
